About Me

I'm a curious and motivated person with a strong passion for software development, which I discovered early on. I love learning new things and staying busy with projects that challenge me. I consider myself an organized person, a bit of a perfectionist, and always looking to improve. My curiosity and drive keep me constantly exploring and growing.

Language Skills

Portuguese: Native
English: C1
German: A1

Skills

Web Development:

- HTML, CSS

Databases:

- SQL, MongoDB, MariaDB, Firebase

Languages & Frameworks:

- Java, JavaScript, Python, PHP, Vue3, Laravel, Angular, Node.js, C#, Flutter, Blazor

Experience

- Internship** Mar 2025 - Current
SINMETRO
Currently part-time interning at SINMETRO, where I collaborate in software development projects. My role involves assisting with various aspects of development, contributing to both the design and implementation of software solutions
- Summer Internship** Aug 2024 - Oct 2024
SINMETRO
Collaboration in the development of a web app. Two weeks of self-training in Vue.js and the DevExtreme framework from DevExpress, gaining practical skills in these technologies. Assisted in frontend development, creating responsive functionalities and interfaces using Vue.js and DevExtreme components, contributing to an efficient and user-friendly web application.
- Summer Internship** Aug 2023 - Sep 2023
Advance - Coding Experts
Completed a course in Blazor WebAssembly, focused on building full-stack applications using .NET 6. Applied best practices with frameworks like Entity Framework Core and Web APIs. Gained beginner-level programming and application development in the Flutter language.
- Summer Internship** Aug 2022 - Sep 2022
TJ Moldes
Provided assistance to the IT manager at TJ Moldes, supporting the resolution of IT-related issues. Responsible for configuring computers and hardware equipment, ensuring seamless operation across the organization.

Education

- Bachelor of Computer Science** 2022-Current
ESTG- Politécnico de Leiria
Currently in the final year of the Bachelor's degree in Computer Science at ESTG - Polytechnic Institute of Leiria. Throughout the course, I have gained strong theoretical and practical knowledge in computer science, with a focus on software development. Through academic projects I have developed problem-solving skills, effective teamwork, and the ability to adapt to different technologies and frameworks.
- Bachelor of Informatics, Erasmus** Oct 2024 - Feb 2025
TVZ - Zagreb University of Applied Sciences
Spent one semester abroad as part of the Erasmus+ program to gain international experience and step out of my comfort zone. This opportunity allowed me to strengthen soft skills such as communication, adaptability, and independence, while also enhancing my cultural awareness. The experience contributed significantly to both my personal and professional growth.
